Technical Projects

Hunt-And-Peck- [Github](#)

An interactive typing program that displays WPM in real time as you type

- Used Materialize and custom CSS to design the front end
- Built API with Ruby on Rails for the back end
- Incorporated Highcharts to render real time WPM every second on a graph
- Main framework used for the project was JavaScript and JQuery

SuperSearch - [API Github](#) | [Client Side Github](#)

A unique way to search topics that peak your curiosity and take notes associated with said topics

- Used Bootstrap and custom CSS to design the front end
- Built API with Ruby on Rails for the back end
- Main framework was built on React with multiple components
- Hit multiple API searches to maximize the search (Flickr, YouTube, Wikipedia)

DrawChat - [Github](#)

A program that allows you to draw on a canvas with others while also being able to chat, all in real time

- Built with React for the front end and Ruby on Rails for back end API
- Utilized Bootstrap and custom CSS for front end layout
- Implemented web sockets to provide real time updates (canvas and chat) to others who are also online
- Used New Relic for benchmarking

Education

Flatiron School, New York, NY - 2017

Full Stack Web Development, Ruby on Rails and JavaScript Immersive Program

University of Illinois at Chicago, Chicago, IL - 2015

Pharm.D.

Work Experience

Duane Reade, New York, NY — *Staff Pharmacist*

November 2015 - October 2016

- Received and verified validity of roughly 130 prescriptions daily and processed claims through insurance companies
- Assisted over 40 customers with any issues daily, such as contacting insurance companies regarding coverage, sending or requesting prescriptions from other pharmacies, and calling doctors for alternative drugs as needed
- Effectively communicated with relevant healthcare professionals if there was a problem regarding a customer's drugs
- Accounted for and restocked inventory daily as necessary

For the duration of my first year, I was the only employee operating the pharmacy, with no technicians or cashiers to assist

Duane Reade, New York, NY — *Pharmacy Manager*

October 2016 - February 2017

- In addition to performing all staff pharmacist duties, managed the pharmacy and 2 employees, including opening and closing procedures, staff training, organizing stock, and successfully improving the layout and efficiency of the store
- Responsible for delivering sales results and improving customer satisfaction with average survey ratings of 9 out of 10
- Performed ordering and recordkeeping duties, including completing DEA forms for government-regulated drugs

Brief Bio

Licensed pharmacist turned full stack web developer with experience in Ruby on Rails and JavaScript-based programming. I have a natural curiosity of how things work and enjoy diverse logical patterns. I am a quick learner, a creative thinker, and bring strong skills in project management that contribute to quality work.
